BBA

General Subjects

Vol. 1074, 1991

Cumulative Contents

Regular Papers

Studies on *N*-acetylglucosaminidase activity produced by *Streptomyces hygroscopicus*
A. Irhuma, J. Gallagher, T.J. Hackett and A.P. McHale (Republic of Ireland) 1

Regulation of nitrite uptake and nitrite reductase expression in *Chlamydomonas reinhardtii*
A. Galván, F. Córdoba, J. Cárdenas and E. Fernández (Spain) 6

Inhibition of the oxidation of hydroxyl radical scavenging agents after alkaline phosphatase treatment of rat liver microsomes
S. Puntarulo and A.I. Cederbaum (Argentina, U.S.A.) 12

The chemical basis for the ferriprotoporphyrin IX-chloroquine complex induced lipid peroxidation
Y. Sugioka and M. Suzuki (Japan) 19

Hepatic handling of photoirradiated bilirubin. A study in isolated perfused Wistar rat liver
J.M. Pellegrino, M.G. Roma, A.D. Mottino and E.A. Rodríguez Garay (Argentina) 25

Spermidine N^1-acetyltransferase activity in rat uterus after 17β-estradiol and during the estrous cycle
A. Sessa and A. Perin (Italy) 31

Enzymatic reaction of β-*N*-methylaminoalanine with L-amino acid oxidase
M. Hashmi and M.W. Anders (U.S.A.) 36

The manipulation of DNA with restriction enzymes in low water systems
A.B. Hanley, C.S.M. Furniss, C.A. Kwiatkowska and A.R. Mackie (U.K.) 40

Cholinesterase solubilizing factor from *Cytophaga* sp. is a phosphatidylinositol-specific phospholipase C
K. Jäger, S. Stieger and U. Brodbeck (Switzerland) 45

The effects of fluorouracil on thymidylate synthase and thymidine kinase in regenerating rat liver after partial hepatectomy
I. Tsukamoto and S. Kojo (Japan) 52

The influence of pH on cystine and dibasic amino acid transport by rat renal brushborder membrane vesicles
R.A. Reynolds, S.G. Mahoney, P.D. McNamara and S. Segal (U.S.A.) 56

Triggering of the vascular permeability reaction by activation of the Hageman factor-prekallikrein system by house dust mite proteinase
K. Maruo, T. Akaike, Y. Matsumura, S. Kohmoto, Y. Inada, T. Ono, T. Arao and H. Maeda (Japan) 62

Immobilized metal ion affinity partitioning of cells in aqueous two-phase systems: erythrocytes as a model
H. Goubran Botros, G. Birkenmeier, A. Otto, G. Kopperschlager and M.A. Vijayalakshmi (France, F.R.G.) 69

Identity between the placental protein PP10 and the specific plasminogen activator inhibitor of placental type PAI-2
U. Kiso, A. Henschen, H. Bohn, N. Heimburger, K.-P. Radtke, I. Lecander and B. Åstedt (F.R.G., Sweden) 74

Purification and properties of neutral β-*N*-acetylglucosaminidase from carp blood
R. Ueno and C.-S. Yuan (Japan) 79

The relationship between the light scattering properties of zymogen granules and the release of their contained proteins
S. Rothman, J. Underwood, K. McQuaid and J. Grendell (U.S.A.) 85

Alterations in cardiac contractile proteins due to oxygen free radicals
S. Suzuki, M. Kaneko, D.C. Chapman and N.S. Dhalla (Canada) 95

Bound and unbound pyridine dinucleotides in normal and glucose-6-phosphate dehydrogenase-deficient erythrocytes
L. Canepa, A.M. Ferraris, M. Miglino and G.F. Gaetani (Italy) 101

The effect of blood on the uptake of liposomal lipid by perfused rat liver
A.R. Nicholas and M.N. Jones (U.K.) 105

Hypoxia-stimulated reduction of doxyl stearic acids in human red blood cells. Role of hemoglobin
M. Minetti and G. Scorza (Italy) 112

Characterization of a monoclonal antibody which is an activator of rabbit platelets
L.-Y. Chau and J.-R. Lin (China) 118

Cholesterol modulates PAF-stimulated Ca^{2+}-mobilization in monocytic U937 cells
M. Aepfelbacher, N. Hrboticky, I. Lux and P.C. Weber (F.R.G.) 125

Effects of detergents on the sulfation of chondroitin sulfate by sulfotransferase from chicken embryo epiphyseal cartilage
M.L.B. Salač and P.A.S. Mourão (Brazil) 130

Purification and characterization of an antiplatelet peptide, arietin, from *Bitis arietans* venom
T.-F. Huang, W.-J. Wang, C.-M. Teng, C.-S. Liu and C. Ouyang (Taiwan) 136

Mechanism of action of the antiplatelet peptide, arietin, from *Bitis arietans* venom
T.-F. Huang, W.-J. Wang, C.-M. Teng and C. Ouyang (Taiwan) 144

Evidence for the presence of P_2-purinoceptors at the surface of human articular chondrocytes in monolayer culture
A.M. Caswell, W.S. Leong and R.G.G. Russell (U.K.) 151

Iron binding to, and release from, the basolateral membrane of mouse duodenal enterocytes
S. Snape and R.J. Simpson (U.K.) 159

Identification of serine proteinases with tonin-like activity in the rat submandibular and prostate glands
G.W. Araujo, J.B. Pesquero, C.J. Lindsey, A.C.M. Paiva and J.L. Pesquero (Brazil) 167

Studies on the decrease of liver cytochrome *P*-450 content by triiodothyronine
D.L. Kleiman de Pisarev, A.M. Ferramola de Sancovich and H.A. Sancovich (Argentina) 172

Substantial quantities of the high energy derivative oligophosphoglyceroyl-ATP are located in mitochondria in rat liver
B. Patel, C.D. Gove, W.L. Hutchinson and J. Mowbray (U.K.) 178

The effect of $PGF_{2\alpha}$ on parathyroid hormone-stimulated cyclic AMP production in mouse osteoblastic cell, $MC3T3E_1$
S. Wada, Y. Yasutomo, H. Kosano, N. Kugai and N. Nagata (Japan) 182

^{31}P-NMR determination of phosphomonoesters in relation to phospholipid biosynthesis in testis of the rat at different ages
J. Van der Grond, G. Dijkstra, B. Roelofsen and W.P.T.M. Mali (The Netherlands) 189

Sex-dependent differences in the effects of aging on antioxidant defense mechanisms of rat liver
L.E. Rikans, D.R. Moore and C.D. Snowden (U.S.A.) 195

Tissue distribution and developmental profiles of immunoreactive αB crystallin in the rat determined with a sensitive immunoassay system
K. Kato, H. Shinohara, N. Kurobe, Y. Inaguma, K. Shimizu and K. Ohshima (Japan) 201

Hepatic and renal cytochrome *P*-450s in spontaneously hypertensive rats
S. Imaoka and Y. Funae (Japan) 209

Report

Specific recognition of human π glutathione transferase by an antipeptide antibody
M. Evangelista, A. Chersi and G. Citro (Italy) 214

Regular Papers

Alkaline phosphatase isoforms in bile and serum and their generation from cells in vitro
F. Raymond, H. Datta and D. Moss (U.K.) 217

Purification and characterization of lebetase, a fibrinolytic enzyme from *Vipera lebetina* (snake) venom
E. Siigur and J. Siigur (U.S.S.R.) 223

Structure and time-dependent behavior of acetylated and non-acetylated forms of a molluscan metallothionein
G. Roesijadi, M.M. Vestling, C.M. Murphy, P.L. Klerks and C.C. Fenselau (U.S.A.) 230

1,3-Poly(glycerol phosphate) chains in the cell wall of *Streptomyces rutgersensis* var. *castelarense* VKM Ac-238
E.M. Tul'skaya, K.S. Vylegzhanina, G.M. Streshinskaya, A.S. Shashkov and I.B. Naumova (U.S.S.R.) 237

Isolation and characterisation of a chicken gelatinase (type IV collagenase)
F.M. Craig, C.W. Archer and G. Murphy (U.K.) 243

Vitamin E inhibits PGE_2 and O_2^- production in rat peritoneal macrophages
W. Sakamoto, K. Fujie, H. Handa, J. Nishihira and M. Mino (Japan) 251

Alkaline phosphatase from rat osseous plates: purification and biochemical characterization of a soluble form
J.C. Say, K. Ciuffi, R.P.M. Furriel, P. Ciancaglini and F.A. Leone (Brasil) 256

Metabolites in the developing rat liver – a proton nuclear magnetic resonance spectroscopic study
J.E.M. Rafter, T.E. Bates, J.D. Bell and R.A. Iles (U.K.) 263

Dimeric and tetrameric hemoglobins from the mollusc *Scapharca inaequivalvis*. Reaction of the oxidized derivatives with azide and fluoride
C. Spagnuolo, R. D'Alessandro and E. Chiancone (Italy) 270

Superoxide anion and hydrogen peroxide metabolism in soybean embryonic axes during germination
S. Puntarulo, M. Galleano, R.A. Sanchez and A. Boveris (Argentina) 277

The membrane fraction of homogenized rat kidney contains an enzyme that releases epidermal growth factor from the kidney membranes
P.E. Jørgensen, E. Nexø and S.S. Poulsen (Denmark) 284

Visibility of ATP and ADP in freeze-trapped tissue from perfused rat liver during normoxia and ischemia using ^{31}P-cryo-NMR
I. Ikai, M. Okuda, N. Doliba and B. Chance (U.S.A.) 289

Identification of a catalase-negative sub-population of peroxisomes induced in mouse liver by clofibrate
E. Klucis, D.I. Crane, J.L. Hughes, A. Poulos and C.J. Masters (Australia) 294

In vivo regulation of mitochondrial respiration in cardiomyocytes: specific restrictions for intracellular diffusion of ADP
V.A. Saks, Y.O. Belikova and A.V. Kuznetsov (U.S.S.R.) 302

Ni(II) and Ni(I) forms of pentaalkylamide derivatives of cofactor F_{430} of *Methanobacterium thermoautotrophicum*
C.L. Hamilton, L. Ma, M.W. Renner and R.A. Scott (U.S.A.) 312

Nitroglycerin metabolism by *Phanerochaete chrysosporium*: evidence for nitric oxide and nitrite formation
D. Servent, C. Ducrocq, Y. Henry, A. Guissani and M. Lenfant (France) 320

Isolation of two forms of decay-accelerating factor (DAF) from human urine
Y. Nakano, Y. Sugita, Y. Ishikawa, N.-H. Choi, T. Tobe and M. Tomita (Japan) 326

Rapid Report

The presence of glycoproteins in the cell membrane complex of a variety of keratin fibres
A.K. Allen, J. Ellis and D.E. Rivett (U.K., Australia) 331

Corrigendum 335

Regular Papers

Apparent ATP-linked succinate thiokinase activity and its relation to nucleoside diphosphate kinase in mitochondrial matrix preparations from rabbit
E.F. Kadrmas, P.D. Ray and D.O. Lambeth (U.S.A.) 339

Purification and characterization of the hemorrhagic factor II from the venom of the Bushmaster snake (*Lachesis muta muta*)
E.F. Sánchez, A. Magalhães, F.R. Mandelbaum and C.R. Diniz (Brazil) 347

Regulation of 6-phosphofructo-1-kinase from the epithelial cells of rat small intestine during pregnancy and lactation
S.M. Khoja and A.O. Abuelgassim (Saudi Arabia) 357

Immunohistochemical localization, purification, and characterization of human urinary bladder glutathione *S*-transferases
S.V. Singh, B. Roberts, V.A. Gudi, P. Ruiz and Y.C. Awasthi (U.S.A.) 363

Primary structure of molluscan metallothioneins deduced from PCR-amplified cDNA and mass spectrometry of purified proteins
M.E. Unger, T.T. Chen, C.M. Murphy, M.M. Vestling, C. Fenselau and G. Roesijadi (U.S.A.) 371

Studies on the reactions between human tyrosinase, superoxide anion, hydrogen peroxide and thiols
J.M. Wood and K.U. Schallreuter (F.R.G.) 378

Substrate inhibition of xanthine oxidase and its influence on superoxide radical production
H. Rubbo, R. Radi and E. Prodanov (Uruguay) 386

Penicillium chrysogenum extracellular acid phosphatase: purification and biochemical characterization
H. Haas, B. Redl, E. Leitner and G. Stöffler (Austria) 392

Characterization of partially purified prostaglandin E_2 receptor from the canine renal medulla: evidence for physical association of the receptor protein with the inhibitory guanine nucleotide-binding protein
T. Watanabe, T. Shimizu, A. Nakao, S. Taniguchi, Y. Arata, T. Teramoto, Y. Seyama, M. Ui and K. Kurokawa (Japan) 398

Antiarrhythmic drugs impair hepatic uptake and secretory function by different mechanisms in the isolated perfused rat liver
R. Lenzen, W. Stremmel and G. Strohmeyer (F.R.G.) 406

Vesicles and particles of sodium bis(2-ethylhexyl) phosphate in binary and ternary systems
E. Nakache, O. Bouloussa, J. Bourguet, J. Lovera and P. Gregoire (France) 413

Activation and inhibition of human alcohol dehydrogenase by monoclonal antibodies
Y.-W. Ho, W.-P. Fong and W.K.K. Ho (Hong Kong) 419

Detergent-solubilized proteoglycans in rat testicular sertoli cells
A. Mounis, P. Barbey, M. Langris and J. Bocquet (France) 424

Enkephalin hydrolysis by human serum biotinidase
J. Oizumi and K. Hayakawa (Japan) 433

Report

Isolation of two new natural pteridines from photosynthetic bacteria, *Rhodopseudomonas sphaeroides*
N. Seo, E. Okamoto and M. Goto (Japan) 439

Rapid Report

Improved purification of 12-lipoxygenase from rat basophilic leukemia cells and conditions for optimal enzyme activity
E.M.M. Van der Donk, G.R. Dubois, J. Verhagen, G.A. Veldink and J.F.G. Vliegenthart (The Netherlands) 443

Cumulative Contents, Vol. 1074 449
